Pammi Kumari

ReactJs developer, Frontend developer

pammisao1234@gmail.com | www.linkedin.com/in/pammi-kumari-099978179/ | github.com/PammiKumari1234

Profile

As a Frontend Developer with 3 years of experience. I have a strong foundation in frontend development, problem solving and debugging skills, specialized in React, JavaScript and typeScript.

Skills and Competencies

ReactJs | JavaScript | TypeScript | Redux | HTML | CSS | API Integration | Git and Version Control | Agile Development Methodologies | Webpack/Babel and Build Tools

Professional Experience

Systems Engineer, *TCS*
Jan 2023 – present | Bangalore, India
Key Responsibilities:
- Developed and implemented responsive user interface using React, ensuring a seamless and engaging user experience and Redux for managing application state.
- Collaborated with cross-functional teams, including designers and backend developers, to translate design specification into functional code.
- Integrated RESTful APIs to fetch and update data, optimizing application performance and responsiveness.
- Utilized Webpack and Babel for bundling and transpiling JavaScript code.

Senior Software Engineer, *Capgemini*
Jan 2021 – Jan 2023 | Kolkata, India
Key Responsibilities:
- Worked with web development technologies such as React, JavaScript, Bootstrap, CSS, and HTML. My role involved implementing Bootstrap plugins to create dynamic components like carousels, accordions, and modal windows.
- I excelled in identifying and developing highly-responsive user components, ensuring an enhanced and engaging user experience.

Training and Internships
