SUMMARY

Highly motivated Senior Software Engineer with 4+ years of experience in building robust, maintainable, and high-performance user interfaces. Skilled in React.js, TypeScript, JavaScript, HTML, and CSS, with strong expertise in state management, component-driven architecture, and API integration. Passionate about crafting seamless, responsive, and user centric experiences, and proficient in leading frontend best practices to deliver impactful business results.

TECHNICAL SKILLS

- **Frontend-** JavaScript, React.js, Redux, TypeScript, HTML, CSS, REST APIs.
- **Database-** SQL
- **DevOps & Tools-** AWS, Azure, Jenkins, Docker, Git, GitHub, Jira, Agile Development Methodologies, Jest, VSCode, Postman, Adobe XD, Figma, Marketo.

WORK EXPERIENCE

iOPEX Technologies, Bangalore, India - Senior Software Engineer   **10/2024 – Present**

- Developed and optimized highly interactive, mobile-responsive user interfaces using React.js, JavaScript, HTML, and CSS, ensuring a seamless user experience across devices.
- Collaborated closely with design and marketing teams to implement pixel-accurate, accessible, and maintainable components.
- Implemented best practices for component design, state management, and performance optimization, reducing load times and boosting user engagement.
- Created and executed unit and component tests using Jest, ensuring robust, bug-free code and increasing test coverage across critical features.

TCS , Bangalore, India - Systems Engineer   **01/2023 – 09/2024**

- Developed and implemented highly interactive and maintainable user interfaces for a leading aircraft manufacturer using React.js, Redux, Kendo UI, and TypeScript.
- Integrated REST APIs, implemented caching and batching strategies, and optimized rendering, achieving a 15% improvement in application performance and responsiveness.
- Enhanced user interfaces with dynamic rendering and component-based architecture in React.js, resulting in a more modular and scalable codebase.

Capgemini India Pvt Ltd, Kolkata, India – Senior Software Engineer   **01/2021 – 01/2023**

- Developed highly responsive, component-driven user interfaces for a leading US-based e-commerce(healthcare) client using React.js, JavaScript, CSS, and HTML, focusing on accessibility and mobile responsiveness.
- Created and implemented advanced user components, achieving a 20% improvement in user engagement and conversion rates.
- Created unit and component test cases using Jest, increasing code reliability, and ensuring seamless deployment across environments.

Certifications

- AZ-900: Microsoft Azure Fundamentals, 2022

Education

- **Silicon Institute of Technology**, Bhubaneswar | Masters of Computer Application | April 2020 | 8.2 CGPA
